

Envato Author Fee Schedule

Envato charges an Author Fee that varies depending on your all-time sales and whether you've opted to sell your work exclusively on Envato Market. For exclusive authors, the more you sell, the less our fees become so that you take home more from every sale.

Remember the total purchase includes our Envato Buyer Fee and your Item Price. To calculate your earnings, you need to take the Item Price and deduct our Author Fee. We call the total of the Item Price and Envato's Buyer Fee the List Price, and the total List Price value across all purchases of your items is used to calculate our Author Fee.

Non-Exclusive Author Fee 55%
Exclusive Author Fee 12.5 - 37.5%
